

Advanced Sweeping Technology

The Ultimate Sweeping Solution for Cleaner, Greener, and Smarter Environments.

Product Size & Specifications

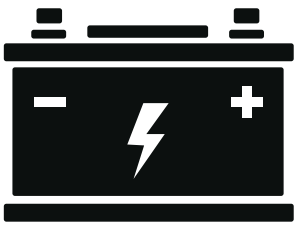

The DRS-90T Sweeper is a high-performance, industrial-grade cleaning machine equipped with advanced technology, a powerful sweeping system, and user-friendly controls. It ensures maximum cleaning productivity with minimal maintenance.

Clear Water Tank	90L	Voltage	48V
Waste Dust Tank	100L	Brush Motor	650W
Sweeping Width	1100mm	Suction Motor	2X90W
Main / Side Brush Width	690X300/2X500mm	Drive Motor	1000W
Cleaning Efficiency	6600m2/h	Weight	320Kg
Battery Capacity	65X4Ah	Size	1569X1114X1327mm
Working Time	3-3.5h		

Product Performance

The DRS-90T 's 65X4 Ah battery assures extended operation, providing stable and constant power for tough cleaning activities. This high-capacity battery is designed for efficiency and improves the Sweeper's performance, allowing it to work continuously for lengthy periods of time. Its fast-charging capability and sturdy design make it suitable for both indoor and outdoor use, assuring maximum productivity with minimal downtime.

Standard 48V lithium battery,
6 years of service life/4hours
of charging/4 hours of
battery life

Smart charger, thermal
safety protection after full
charging

Electronic lock device safer
storage

Rare earth permanent magnet
brushless motor, 10 years of
service life/low noise/light
power consumption/strong
power

Intelligent integrated instrument,
Long waterproof life/one click loading
and unloading brush disc

Efficient decontamination
without leaving traces

Front Spray Device

Adopting fog type dust suppression technology, the cleaning effect is better, and green cleaning does not raise dust

Double brush linkage

Double sided brush+main brush, improving work efficiency and greatly improving cleaning intensity.

500 mm ***2**

Edge brush width * quantity

690*300 mm

Main brush length

Strong climbing ability

Strong climbing ability in front wheel drive, easy to pass speed bumps.

Water tank and garbage bin

Large capacity, simple disassembly, continuous operation without stopping, and the garbage bin is equipped with easy to move casters, making it more convenient to dump garbage.

Factory cleaning, one machine solution to all cleaning problems

Leaves, debris, cigarette butts, dust, etc., can be easily cleaned with just one sweep

Product Details

Portable garbage bin

Quick loading and unloading of garbage bins, equipped with easy to move casters for easy disposal of garbage.

Simple instrument

Adopting a simple control instrument, it is easy to operate without training, and the machine can be directly controlled through buttons.

Front and rear solid tires

The front and rear tires of the machine are made of wear-resistant and anti puncturing solid tires, which have a long service life and are wear-resistant with nails, making cleaning more efficient.

Rolling plastic water tank

The integrated water tank design is made of polyethylene roll molding, which is leak proof, more durable, and has a long service life.

Portable garbage bin

The machine comes standard with deceleration and acceleration technology, which uses a foot brake to shift gears and is equipped with a dual disc brake system, providing excellent braking effect and anti-lock braking.
